

## Department of Community Affairs

Greetings Rattlers,

The Department of Community Affairs is extremely excited for the 2018-2019 academic school year! While achieving the main responsibility of offering the student body myriad volunteer opportunities, our goal is to establish an entity that is far more impactful than simply providing service projects. We plan to build stronger relationships between students, allow students to network with one another and the people we are serving, and most importantly, become one with the community and understand the community we serve.

This department will act as a liaison between the student body and SGA to achieve the best utilization of resources between the two groups. In order to accomplish all of the goals set within this department this year, a committee will be created. Students who choose to join this committee will be the first to know about volunteer opportunities on campus, and they will have the opportunity to collaborate on service projects throughout the year. This committee will also be used to quickly, and efficiently reach out to students when there are large-scale service projects that require a significant number of volunteers. The Department of Community Affairs plans to maintain, and build, strong relationships with every organization on campus in order to meet their needs and wants when they need volunteers for any event. This department also plans to have volunteer opportunities that apply to every major. Not only do we want students to give back to the community, but we want students to receive something from their service as well.

The Department of Community Affairs looks forward to serving the campus, the Tallahassee community, and the student body.

Sincerely,

Aries Hamlet  
Secretary of Community Affairs
