

Department of Economic Development

Welcome to the Department of Economic Development! The purpose of the Department of Economic Development is to aid organizations with fundraising and budgeting, implement programs that teach students to properly manage their assets, and handle negotiations with public and private firms concerning economic advantages and incentives for our student body. Moreover, we are to expose the student body to networking opportunities, encourage entrepreneurship, and foster corporate relationships for the sponsorship of major student government events.

We aim to host interactive and educational events that will promote financial growth and development. Furthermore, being that many students have expressed their lack of knowledge in debt management, graduate school funding, and wealth building- we will organize our resources to create an environment of financial self-sufficiency. Our expectations are increases in students' willingness to be financially aware as well as involvement in the Department of Economic Development's activities and events. An increased interest in personal finance will better prepare our students for life after graduation, resulting in more knowledgeable and autonomous adults. We are with great honor and privilege to be entrusted with the responsibility of guiding the student body towards fiscal responsibility.

Jasmine R. Johnson
Secretary of Economic Development

Shelby Hall
Deputy Secretary of Economic Development
